

following client-level data: Provider ID; Client ID; Co-dependent/Collateral flag; Services at discharge; Date of last contact; Date of discharge; and Reason for discharge, transfer, or discontinuance of treatment.

NMFI: The forms used by States to update information on facilities in the NMFI have been automated and will be available on the Internet through the DASIS home page. The on-line version of the update forms will include the following new items: Detoxification services (to be added to the checklist of services, FDA (Methadone) ID, EIN, Director's name and phone number, and facility FAX number.

UFDS: The UFDS survey will be shortened in 1999 so that resources can be redirected to a major revision of the questionnaire. Client counts, services provided (except for programs for special populations), and revenue data will not be asked. Sample augmentation activities, which involve searching directories and other sources for substance abuse treatment facilities not included in the NMFI, will not be conducted prior to the 1999 UFDS but will be conducted late in 1999 in preparation for the 2000 UFDS.

Possible changes to the 2000 UFDS questionnaire will be explored in 1999, including, for example, changing the

reference date, revising questions on setting, treatment capacity, and revenue, and adding questions on current topics as needed. The proposed changes will be studied through small-scale focus groups and workshops with data users and substance abuse service providers, and through larger scale solicitations of comments and suggestions from States and pretests of revised forms with facilities.
